

TECHNOLOGY ADOPTION ASSESSMENT INTERVIEW GUIDE

Prepared by: Anita Margelia O. Barrientos

Course: DCIT 26 – Application Development and Emerging
Technologies

Date: September 11, 2026

Instructor: Johneros Puyo

I. Introduction

a. Purpose of the Interview

The purpose of this interview guide is to evaluate Manila Manufacturing Corporation's (MMC) current state of technology, operational difficulties, technological awareness, organizational preparedness, available skills, budget, and implementation capacity. The data collected will be utilized to formulate suggestions regarding emerging technologies that could assist MMC in modernizing its manufacturing processes, increasing productivity, enhancing decision-making, and maintaining its competitiveness.

The main topics of the interview are Artificial Intelligence (AI), Machine Learning, Augmented Reality (AR), Internet of Things (IoT), Cloud Computing, Big Data Analytics, and Quantum Computing.

b. Instructions for the Interviewer

1. Introduce yourself and explain the purpose of the interview.
2. Ask permission before beginning the interview.
3. Explain that the interview is intended for assessment and recommendation purposes.
4. Read each question clearly and allow the interviewee enough time to respond.
5. Use the suggested probes when an answer requires clarification.
6. Do not influence the interviewee's answers.
7. For closed-ended questions, record the selected answer.
8. For open-ended questions, summarize the interviewee's response in the notes section.
9. Ask follow-up questions when an answer identifies an important problem, opportunity, or concern.
10. Maintain confidentiality of information shared during the interview.

II. Interviewee Information

Name: _____

Position/Job Title: _____

Department: _____

Years _____ with _____ MMC:

Date of Interview: _____

Interviewer: _____

Preferred Contact Information: _____

Primary _____ Area _____ of _____ Responsibility:

Interviewee Signature: _____

III. Background and Current State

1. What are the main tasks or procedures that go into MMC's everyday production operations?

Response: _____

2. What equipment, software, digital systems, and technologies does MMC currently employ?

Response: _____

3. Which operational areas are most problematic or inefficient?

Response: _____

Follow-up Question: Why do these problems occur, and how do they affect production?

4. How does MMC currently collect, store, and use production or operational data?

Response: _____

5. Does MMC currently use automated systems in any part of manufacturing?

☐ Yes ☐ No ☐ Partially ☐ Not sure

Response: _____

Follow-up Question: What processes are automated, if any?

IV. Technology Awareness and Readiness

6. How familiar are you with emerging technologies?

☐ Very familiar ☐ Familiar ☐ Somewhat familiar ☐ Not familiar

Response: _____

7. Which emerging technologies has MMC already considered or discussed?

☐ AI ☐ Machine Learning ☐ AR ☐ IoT ☐ Cloud Computing ☐ Big Data Analytics ☐ Quantum Computing ☐ None

Response: _____

8. What benefits could emerging technologies provide to MMC?

Response: _____

Follow-up Question: Can you give an example of a manufacturing problem that technology could address?

9. How prepared is MMC to adopt an emerging technology?

☐ Very prepared ☐ Prepared ☐ Somewhat prepared ☐ Not prepared
☐ Unsure

Response: _____

10. What factors make MMC ready or not ready to adopt emerging technologies?

Response: _____

Follow-up Question: Can you elaborate on the biggest factor?

V. Industry and Competitive Analysis

11. What technological changes have you observed in other manufacturing companies or competitors?

Response: _____

12. Does MMC need to adopt emerging technologies to remain competitive?

☐ Yes ☐ No ☐ Unsure

Response: _____

Follow-up Question: Why?

13. Which area would benefit most from technological modernization?

☐ Production ☐ Inventory ☐ Quality Control ☐ Maintenance ☐ Logistics
☐ Customer ☐ Management ☐ Decision-Making ☐ Other

Response: _____

Follow-up Question: Why is this area a priority?

14. What could happen to MMC's competitiveness if it does not modernize its technology?

Response: _____

Follow-up Question: How might this affect costs, production, customers, or employees?

VI. Specific Technology Areas

A. AI and Machine Learning

15. Are there MMC tasks involving human decision-making that could potentially be supported by AI or Machine Learning?

☐ Yes ☐ No ☐ Unsure

Response: _____

Follow-up Question: Which tasks, and how could the technology help?

16. Does MMC have historical production or operational data that could be used to identify patterns or improve predictions?

☐ Yes ☐ No ☐ Unsure

Response: _____

Follow-up Question: Could this support quality, maintenance, production planning, or another area?

B. Augmented Reality (AR)

17. Could AR be useful for maintenance, warehouse, repair, or employee training at MMC?

☐ Yes ☐ No ☐ Unsure

Response: _____

Follow-up Question: What task would benefit most, and what information should employees see?

C. Internet of Things (IoT)

18. Does MMC use sensors or connected devices to monitor machines, equipment, inventory, or production conditions?

☐ Yes ☐ No ☐ Partially ☐ Unsure

Response: _____

Follow-up Question: What would MMC want to monitor in real time?

19. How could connected devices and real-time information improve MMC's manufacturing operations?

Response: _____

Follow-up Question: How could employees respond to problems faster?

D. Cloud Computing and Big Data Analytics

20. Does MMC use cloud-based applications or services, and what data or applications could benefit from cloud access?

☐ Yes ☐ No ☐ Partially ☐ Unsure

Response: _____

Follow-up Question: What concerns would MMC have about using cloud services?

21. What types of data does MMC generate, and how could Big Data Analytics help identify patterns or support decisions?

Response: _____

Follow-up Question: What information would MMC most want to discover?

E. Quantum Computing

22. How familiar are you with quantum computing and its possible applications?

☐ Very familiar ☐ Familiar ☐ Somewhat familiar ☐ Not familiar

Response: _____

23. Would MMC consider exploring quantum computing for future business or manufacturing applications?

☐ Yes ☐ No ☐ Maybe in the future ☐ Unsure

Response: _____

Follow-up Question: What would need to happen before MMC would consider it?

VII. Skills and Capacity

24. Does MMC currently have employees with the technical skills needed to implement and maintain emerging technologies?

☐ Yes ☐ No ☐ Partially ☐ Unsure

Response: _____

Follow-up Question: What skills or training are needed?

25. What approach would best support MMC's technology adoption?

☐ Develop internal skills ☐ Hire specialists ☐ Work with technology providers
☐ Combination ☐ Unsure

Response: _____

Follow-up Question: Why would this approach be suitable for MMC?

VIII. Budget and Implementation

Record budget and implementation information discussed during the interview.

Budget Status: ☐ Allocated ☐ Under discussion ☐ Not allocated ☐ Unsure

Key _____ budget _____ considerations: _____

Implementation challenges: __Budget __Skills __Infrastructure __Employee resistance __Existing systems __Security __Uncertain benefits __Management support __Other

Preferred approach: __Pilot __Full implementation __Phased implementation __Unsure

Notes: _____

IX. Closing

Thank you for participating. Your responses will help TechVision Consulting Inc. assess MMC's current situation and develop recommendations for emerging technology adoption.

Additional Notes:

X. Required Checking Results

1. Proof of Grammar Checking Using Grammarly

The screenshot shows the Grammarly interface with a performance report overlay. The report includes the following data:

- Text score:** 90 out of 100. This score represents the quality of writing in this document. You can increase it by addressing Grammarly's suggestions.
- Word count:**
 - Characters: 9,166
 - Words: 884
 - Sentences: 112
- Readability:** Metrics compared to other Grammarly users.
 - Word length: 5.5 (Above average)
 - Sentence length: 7.9 (Average)
 - Readability score: 30 ?
- Vocabulary:** Metrics compared to other Grammarly users.

The background shows a document titled 'Module 2 Activity Barrientos' with text about the purpose of the Corporation's (MMC) difficulties, technologies, and available skills. The document is being edited in a web browser.

2. Proof of AI Checking Using ZeroGPT

The screenshot shows the ZeroGPT AI detector interface. The results indicate that most of the file content is AI/GPT generated, with a score of 78.2% AI GPT*. The interface includes a 'Detect Text' button and an 'Upload File' button. The document content is visible in the background, showing a questionnaire about technology awareness and readiness.

Most of Your File Content is AI/GPT Generated

78.2% AI GPT*
